Internship Completion Letter

For Nareshkumar A,

This is to certify that Nareshkumar A, bearing Intern ID **ITID6620**, successfully completed **one-month** internship training as an **Offensive Cyber Security Intern** at InLighnX Global Pvt. Ltd. from **20/05/2026** to **20/06/2026**.

Projects completed by Nareshkumar A:

- Developed multiple Python-based cybersecurity tools and simulations for subdomain enumeration, PDF security analysis, network scanning, port scanning, authentication security assessment, and distributed network monitoring within controlled laboratory environments.
- Designed and implemented automated security assessment workflows using DNS resolution, multithreading, socket programming, file handling, and networking protocols to perform asset discovery, document analysis, service identification, and security configuration evaluation.
- Built reporting and analysis modules to generate structured security findings, metadata reports, authentication assessments, network topology information, and actionable recommendations to support documentation and security research activities.
- Strengthened expertise in Python development, networking concepts, cybersecurity analysis, multithreading, authentication mechanisms, and security documentation by contributing to the end-to-end development, testing, and evaluation of multiple educational cybersecurity projects.

Regards,

Ghanshyam Tripathi
Director & HR Manager
